## Employment History

---

### Associate Consultant - Capgemini India, Mumbai

October 2017 - Present

- Worked on transitioning a multi-application stack from traditional on-site servers to serverless on Azure. Integrating services among Azure Functions, ESB, Table & Blob Storage, SQL Server, EFCore, EntityFramework, Linq, and more.
- Experienced with .NET Core API development with multi-tier architecture and design patterns.
- Experienced in complete Project Lifecycle from Design to Implementation to Integration.
- Worked on migrating a major application from SQL Server 2008 and IIS 6 to SQL Server 2016 and IIS 10.
- Co-ordinated with a team for creation of an in-house code coverage tool using Java, SpringBoot, MySQL and Angular.
- Familiarity with Agile for fast-paced development process.

### Independent Android Developer, Mumbai

- Efficient in design, development and deployment of applications to Playstore.
- Experience with Jetpack/AndroidX, Room, SQLite databases, ViewModel & LiveData, Services, BroadcastListeners.
- Third party APIs like Firebase (Auth, Analytics and Realtime database), Google Cloud Messaging, Picasso, Glide, ButterKnife and more.
- Published multiple apps in Playstore.

## Education

---

### Computer Science - LDRP-ITR, Gandhinagar, Gujarat

July 2013 - May 2017

I finished my Bachelor of Engineering in Computer Engineering with a CGPA of 8.59.

## Certificates

---

- Microsoft Certified C# Developer (70-486) [2018]
- Oracle Certified Associate Java Programmer (1Z0-808) [2016]
